*** ELECTRONIC AUTOCAD DRAWINGS INCLUDING ELEVATIONS ARE PREFERRED AND PROVIDE THE MOST ACCURATE LAYOUTS. ***

SCALING ISSUES MAY DEVELOP IF DRAWINGS ARE SENT VIA FAX OR PDF. CONVERTING THESE FORMS OF DRAWINGS

OFTEN CAUSES SCALING ISSUES IN MOST CASES. TO AVOID THESE ERRORS WE PREFER ELECTRONIC AUTOCAD FILES WHENEVER POSSIBLE.

THE LIGHTING LAYOUTS PROVIDED BY H.E. WILLIAMS INC. ARE FOR GENERAL LIGHTING RECOMMENDATIONS AND ARE NOT

INTENDED TO BE USED AS ACTUAL CONSTRUCTION SITE PLANS. FIXTURE SPACING MAY NEED TO BE CHANGED TO AVOID HVAC OR OTHER OBSTACLES

THESE CHANGES WILL AFFECT FOOT CANDLE LEVELS. GENERALLY, LESS DISTANCE BETWEEN FIXTURES WILL INCREASE LIGHT LEVELS AND MORE DISTANCE WILL LOWER THE LEVELS.
